Subject: Draft Modeling Protocol under development for the Navajo Nation re SO2 DRR
Attachments: Modeling Protocol.docx

Dear Colleen:

It is a great pleasure to send you a draft modeling protocol we are developing to serve as the basis for the modeling work we will conduct (or use existing alternative and existing modeling studies) to meet the SO2 Data Requirements Rule.

We realize that there is not much time before the conference call we have planned for today. You may still find it useful to take a cursory read through this draft document (and we emphasize draft) – we hope to have more discussions through our call and follow-up reviews to finalize the protocol before July 1, 2016.

Best regards and many thanks for all of your support and help,

Gaurav Rajen
Sr. Environmental Specialist
